t/office

Optimize your desk space.

The best thing about the new tarifold office range is the way it looks! Decidedly modern, the new design features rounded shapes and sleeker frames for the pockets.

Stylish, ergonomic and modular, you'll find tarifold office products are as simple to use as they are to set up – and you won't need any tools!

And last, but by no means least, advantage is that they make the best use of your desk space! Thanks to the forward positioning of the feet, there is room for your pens, mobile phone, sticky notes or even a t-aromatic capsule.

Great design, functional and space-saving: the winning formula for well-being at the office.
